**Subject:** Texas Regional Haze FR - RA signature by June 12th for transmittal to Administrator.

Suzanne,

I just concurred on the FR notice, Action Memo, Transmittal Memo to Admin. Wheeler. They are still working on the Response to Comments separate document – I will review that next week but wanted to keep this moving.

The WAR target date for RA signature of Transmittal Memo and concurrence on the Federal Register notice is June 12, 2020. The ADP Tracker target date for Administrator signature of Federal Register notice is June 30, 2020.

You will see a lot of moving parts to the notice. There will also be a simultaneous issuance of a petition for reconsideration response on certain RH issues once the Administrator signs the final notice.
